Except as otherwise provided in this subsection, if the public agency considers the existence of a discrepancy between achievement and intellectual ability, the discrepancy must be determined through the use of a statistically valid formula, as prescribed by the Department, which takes into account the age and level of ability of the pupil, the correlation between tests of ability and achievement, and the reliability of each test used. The Department shall prescribe the formula on the basis of consultation with an appropriate representative of each public agency affected. If the public agency considers the existence of a severe discrepancy between achievement and

intellectual ability, the discrepancy between achievement and intellectual ability must be corroborated by classroom-based assessment. If the public agency considers the continuing existence of a severe discrepancy between achievement and intellectual ability in a reevaluation of the pupil, the determination of a severe discrepancy may be made based upon information other than the statistically valid formula prescribed by the Department pursuant to this subsection.

- 3. - 5. The conclusions of the eligibility team concerning the eligibility of the pupil must be based upon an evaluation of the pupil. The evaluation must include:
 - (a) An assessment of:
- (1) The cognitive abilities of the pupil, if the public agency determines the existence of a severe discrepancy between achievement and intellectual ability;
 - (2) The social and emotional condition of the pupil;

 - (4) The performance of the pupil in the pupil's current educational setting;
 - (5) Any scientific, research-based intervention provided to the pupil; and

- → If a child is less than school age or out of school, an eligibility team member shall observe the pupil in an environment appropriate for a pupil of that age.
- 7. To ensure that the underachievement of a pupil who is suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the eligibility team shall consider as part of the evaluation:
- (a) Data that demonstrates that before, or as part of, the referral process, the pupil was provided appropriate instruction in regular educational settings, delivered by qualified personnel; and
- (b) Data-based documentation of repeated assessments of achievement at reasonable intervals that reflects formal assessments of the progress of the pupil during instruction. The documentation must be provided to the parents of the pupil.
- 8. The eligibility team shall document the determination of eligibility of the pupil which must include:
 - (a) A statement as to whether the pupil has a specific learning disability;

- (i) If the pupil has participated in a process that assesses the response of the pupil to scientific, research-based intervention:
 - (1) The instructional strategies used and the pupil-centered data that was collected; and
 - (2) Documentation that the parents of the pupil were notified about:
- (I) The policies of the Department regarding the amount and nature of the data relating to the performance of a pupil that will be collected and the general educational services that will be provided;
 - (II) Strategies to increase the rate of learning of the pupil; and

- (III) The right of the parents to request an evaluation to determine whether the pupil is eligible for special education and related services; and
- (j) A certification by each member of the team that the report reflects the member's conclusions or, if the report does not reflect the conclusions of a member, a minority report of the conclusions of that member.
- 9. If the public agency considers the continuing existence of a severe discrepancy between predicted and actual achievement in a reevaluation of the pupil, the determination of a severe discrepancy may be made based upon information other than the statistically valid formula prescribed by the Department pursuant to subsection 2.

- 5. In a case governed by this section, a pupil may no longer be identified with a developmental delay if the pupil maintains appropriate developmental functioning in all developmental areas for 6 months or more [,] and the eligibility team concludes that special education services are no longer necessary.
